what is this crap....

. This game is over the top, it passes its predecessors like God of War. This game is totally worth it, and I spent 4 hours on it. This game taught me to jump my out of obstacles. 9.2V10, its only a bit laggy, other than that,, Its the best. The first Garshasp was fun in a B-game type way. This game ruined my life and almost made me suicidal and has the worst boss fight I've ever played. Do not ever buy this for you or anyone. Do not do it. It is the worst thing. Do not do it. Do not think of doing it. I am a lesser man for having played it.. Seriously? What da fuq? This voice acting makes me want to throw up. Completely ruins the game. Graphics look like♥♥♥♥♥♥ and combat is clunky as hell. Nope.. This is far shorter than the original, and suffers from worse framerates, jankier controls, and sometimes broken cameras.

The final boss fight is needlessly drawn out and not terribly enjoyable.

Same caveat as before: Only on a deep sale, and only if you're very bored.

Something similar to God Of War. Just that it isn't as good and graphics are poor. InvestGames:

https://www.youtube.com/channel/UC0dvDyLS4_kwbz8gYallU5g - YouTube. Garshasp - a game with solid storyline, like a prince of persia, only inspired by actual mythology.

Great fun, good play.

It's short, but very solid. You can tell the developer actually played his own game. Combat is good, the platformy bits are good, and a decent storyline ties it all together.. dont waste your money. Completely terrible :/. its alright if you're really bored my biggest complaint is that 90% of all sounds in this game are completely stolen from oblivion go play oblivion for 20 minutes then play this, not a single original sound. If there was ever a game that could be worse than Garshasp: The Monster Slayer, this would be it.. It fun to play it.
